(By Morning Bulletin Leased Wire.)
WASHINGTON, D. C., Sept. 28.

The most startling exposure of German intrigue in the United States that has been made in this country is the disclosure of the part played by the German agent, Dr. Otto L. Draper. The presentation of a blood-stained bayonet—a Canadian bayonet—direct from Vimy Ridge to President Wilson by the German agent, Dr. Otto L. Draper, was particularly impressive.

Convention's Salient Features

At the convention, which has been dealt with by the Trade and Labor Congress of Canada during the past week, the following features were of special interest:

Injunctions

The executive committee's report on injunctions was concurred in by the convention and adopted. The gist of this report was as follows:

ment to present to the public the evidence of plots and intrigue against the interests of the United States which have been traced to the German embassy.

Those named in the information given out last night as being connected with the plots include:

James J. Mahoney, president of the United Brotherhood of Carpenters and Joiners of America; Daniel F. Cohalan, who is known as an ardent champion of the Irish cause; John Devoe, a well-known labor leader; and Vincent J. O'Brien, publisher of the anti-British paper, published in Montreal, the *Irish Worker*.

The progress of the labor movement in Canada is being retarded by the attitude of the Trade and Labor Congress upon the great question of conscription.

The adoption of a report advocating increased pay for the soldiers of Canada; increased separation allowances; and the election of a committee to represent the soldiers in the House of Commons, has embarrassed the unions considerably.

The report concludes that the coun-

The War Times Election Act was afterwards discussed. The executive council protested against this legislation as being subversive of those ideals of democracy to which the workers of Canada were committed. In the case

Mr. Waters in reply said: "It is a gift to me to my heart chords to receive from a brother delegate from the British Isles this token. It stimulates me to make my utmost endeav-

A group indication of trouble is that the Bolshevik group in the bureau of the Central Workmen's and Soldiers' delegate has carried by an overwhelming motion a resolution recommending an explanation, an investigation and a report on the reaction to revelations concerning the actions of members and agents of the Central Workmen's and Soldiers' delegate.

The committee concurred in this report, which was adopted.

THRESHING NOW GENERAL

REPORT OF DEPARTMENT OF AGRICULTURE, YIELDS LARGE

Canadian Credit Men's Association Issues Details for Whole Province
—Quantity Less than in Northern Section of the Province.

The "Official" Report

Reports received by the department of agriculture today state that harvest operations are practically finished and threshing has become quite general throughout the province. The weather in the early part of the week delayed threshing, since heavy rain and high winds were prevalent.

Reports announce good yields generally with high grades and particularly favorable for threshing operations late in the season, where, in some districts, all crops are now in the hands of the combine.

There is still a sharp demand for labor in many districts at good wages, although less continues to arrive in large numbers.

Fall plowing operations are being completed in many districts. The following reports are being received by the department:

PEACE RIVER: The crop outlook for this territory is very promising and threshing is well advanced. The farmers, however, will not be able to get the crops in until the middle of the month, owing to the comparative scarcity of threshing machines. A fair amount of grain has been harvested and prospects good.

RED RIVER: The weather has been very favorable for threshing. The crops are well advanced and prospects good. The farmers are now harvesting the crops and prospects good.

SMITH RIVER: The weather has been very favorable for threshing. The crops are well advanced and prospects good. The farmers are now harvesting the crops and prospects good.
